REMARKS

Entry of this paper is respectfully requested.

Claims 37-55 and 62 are pending in the instant Patent Application.

Claims 37, 38, 40, 45-51 and 62 have been amended.

Claims 37, 45 and 48 were initially amended in an Examiner's Amendment, approved in a telephone conversation, between Examiner King and the undersigned attorney on December 31, 2009.

The applicant has made further amendments to claims 37 and 48, as well as amendments to claims 38, 40 and 46 for clarity. Claim 47 was amended for grammar. Claims 49, 51 and 62 were amended to be consistent with the amendments made to claim 48, from which these claims depend. Claim 50 was amended for a proper dependency. All of the aforementioned amendments address formalities only, are not substantive, and were not made to avoid any cited art.

All amendments, including the Examiner's amendments, are in the current claim set as presented in this paper. The aforementioned amendments do not require additional search or examination. These amendments resulted from a review of the notice of Allowability, and therefore, were not earlier presented.

Should the Examiner have any question or comment as to the form, content, or entry of this paper, the Examiner is requested to contact the undersigned at the telephone number below. Similarly, if there are any further issues yet to be resolved to advance the prosecution of this application to issue, the Examiner is requested to telephone the undersigned counsel.

Allowance of all pending claims, 37-55 and 62, is respectfully requested.

The applicants believe that there are not any additional fees currently due.

During the pendency of this application, the Commissioner for Patents is hereby authorized to charge payment of any filing fees for presentation of extra claims under 37 CFR 1.16 and any patent application processing fees under 37 CFR 1.17 or credit any overpayment to Elman Technology Law, PC, Deposit Account No. 05-0845.
